

ELCZ NJUBE YOUTH CENTRE BEATS THE WATER BLUES

ELCZ Njube Youth Centre has just installed their fourth water storage tank to beat the water blues that have hit the city of Bulawayo following another poor rainy season. Speaking to the ELCZ General Secretary M M Dube during a tour of the water storage facilities on 14 June 2013, the Director of the Centre, Ms P Hove said that the new tank improved the capacity of the centre to do business as without additional water, guests cannot be attracted to book in for their activities. Ms Hove said she owed this development to God and sees His Amazing Grace ever since the centre was repaired after being partially gutted down by fire on 22 July 2007. The new tank has a capacity of 5,000 litres and is placed on a 4 metre stand to allow water to gravitate to various parts of the centre.
